DABIE BOMAYE

DABIE BOMAYE is a tape about one thing: the fight. Self-titled because it is him: a hip hop artist from Tema, Ghana, going hard, never giving up and chasing whatever he is aiming for.

Ten tracks. One mission. From the opening cut, where life shows you that in the end it is just you and your God, to the closing track, Asylum, where the madness of the road catches up with you, the project follows a man on the move: no crying, no complaining, only getting up and going again.

It runs through repetition and obsession (O&O, Addict), the journey from Tema to the capital in search of capital, and the hunger for money by any route. The more you repeat something, the more dangerous you become at it.
